

With the Anahola Mountains, the Sandy Shores of Kuna Beach and the Hawaiian elegance of this plantation style oceanbluff estate on 5 acres, you will have your very own pure and private paradise. Renowned Hawaiian architect Charles W. Dickey's essence and influence flow throughout this 3 bedroom 3.5 bath estate home. The two master bedroom suites are separated by full length Ipe wood lanais and enhanced with outdoor lava rock shower gardens. Set the mood throughout this fully furnished and air conditioned home with your Vantage Lighting System. A beautifully appointed kitchen with Wolf range and Sub-Zero refrigerator, a dining room with 6 foot teak dining table and two very spacious rooms for entertaining will delight all.

Down to the smallest of details, General Contractor R.S. Weir's influence is very apparent. Interior Designer Stephen Zeffert of Sequoia Contract Works has expressed such superior artistry that to sum it up one would have to say "Perfectly Stunning".

With amazing uninterrupted ocean views from everywhere and easy access to the beach below, the large swimming pool welcomes you to lounge and relax. Drive through the gracefully landscaped entrance and pull right up to the front door shaded, heartwarming and welcoming you to enter into your Island Dream at Puuwai 'O Kealia.

The true heart of Kealia.
